

Radiant Ridge Energy

Your Reliable Partner for Long-Term Natural Gas Offtake

Who We Are

Radiant Ridge Energy is a well-capitalized energy company focused on natural gas power generation. We convert natural gas into electricity for power-intensive industrial clients, providing reliable demand and stable, long-term offtake opportunities.

500MW

Target Capacity

5-10yr

Contract Terms

What We're Looking For

Natural Gas Supply Requirements

- Volume: Reliable, consistent supply to support growing operations
- Term: Long-term contract (5-10+ years preferred)
- Delivery: Firm transportation with flexible offtake points
- Pricing: Competitive, market-based with potential for index-linked structure

Why Partner With Us?

Creditworthy Counterparty-
Strong financials with ability to provide deposits and Letters of Credit

Long-Term Commitment
Stable demand for power generation, not subject to market volatility

Streamlined Execution –
In house land and legal teams accelerate contract finalization

Technical Competence -
Engineering team ensures optimal gas utilization and minimal waste

Growth Potential-
Expanding operations offer volume increase opportunities

Our Competitive Advantages

- **Inhouse Land Development:** Dedicated team with 20+ years expertise in mineral rights, surface access, and regulatory compliance
- **Rapid Deployment:** Integrated teams enable fast-track execution from contract to first gas in under 6 months
- **Engineering & Operations:** Inhouse capabilities for facility design, infrastructure, and operational optimization
- **Well-Financed:** Strong financial backing with strategic plans to scale to 500MW

Preferred Deal Terms

- **Contract Type:** Gas Supply Agreement (GSA)
- **Term:** 5-10 years (negotiable)
- **Take-or-Pay:** Flexible structure with minimum commitment
- **Pricing:** Fixed or AECO-indexed with potential collar structure
- **Credit Support:** Deposits & Letter of Credit available
- **Timeline:** Contract to first gas in under 6 months

Our Team

Radiant Ridge Energy is backed by seasoned professionals with deep expertise across the energy sector.
